

Self-Introduction

I am a Ph.D. candidate in Department of Computer Science and Engineering at the Hong Kong University of Science and Technology (HKUST), advised by Prof. Kai Chen. I received my B.E. degree in computer science from Huazhong University of Science and Technology (HUST) in 2018. My research interests focus on hardware acceleration, distributed machine learning system, and data center network. I am particularly interested in designing high-performance machine learning systems for newly emerged models, including MoE and LLMs.

Education

- 2018.9 - present **Hong Kong University of Science and Technology**, *PhD Candidate*, Computer Science and Engineering
○ Advisor: Prof. Kai Chen
- 2014.9 - 2018.6 **Huazhong University of Science and Technology**, *BEng.*, Computer Science and Technology
○ Advisor: Prof. Song Wu

Research Interests

- Machine Learning Systems
- Hardware Acceleration
- Datacenter Networking

Industrial Experiences

Nov 2021 - Aug 2023 Research Intern, Hardware Acceleration Group *ByteDance, Beijing*

Worked with Dr. Layong Luo. Design an RDMA-based AI Interconnect network, and a generic and efficient platform for Message-level In-Network Computing.

Awards

2018-now	Postgraduate Studentship	<i>HKUST</i>
2017	Chinese National Scholarship	<i>Ministry of Education</i>
2016	Learning Excellence Scholarship (Top 2 students in CS department)	<i>HUST</i>
2015	Outstanding Student Cadres Scholarship	<i>HUST</i>

Talks

2023	Scalable and Efficient Full-Graph GNN Training for Large Graphs	<i>Seattle, USA</i>
2022	DGS: Communication-Efficient Graph Sampling for Distributed GNN Training	<i>Online</i>
2020	Rat-resilient allreduce tree for distributed DNN training	<i>Online</i>

Teaching Experiences

2019 Fall - 2021 Spring Teaching Assistant Coordinator at HKUST CSE

2023 Spring Teaching Assistant of HKUST COMP1022Q Excel VBA
